- **Matching Number**
- **Hardtop available**
- **Engine and gearbox recently completely overhauled**
- **Extensively restored, interior as good as new**
- **Very beautiful and classic color combination**
- **Automatic gearbox**

This very beautiful 280 SL Roadster has been extensively restored. The engine with add-on parts and the gearbox were completely overhauled in a recognized specialist workshop just 300 kilometers ago. The roadster impresses with its excellent condition, the very beautiful and classic color combination and the new interior made of wine-red leather. The engine number corresponds to the Mercedes-Benz data card dated 12.11.1970. The very beautiful paintwork and the almost perfect chrome parts make this Pagoda appear almost "as new". No maintenance backlog and the high functionality of the vehicle allow the new owner relaxed and carefree tours in spring.
