- Restored vehicle, very well maintained
- Matching Number, Matching Color with MB car card
- Appraisal grade 2+ over 220,000 €
- New interior
- Historic license plate and German registration

This beautiful Mercedes-Benz 280 SE Cabriolet was first registered in the USA in 1968 and was exported to Germany by the current owner in 2014. The vehicle has therefore been in the same ownership for 10 years. Between 2019 and 2021, the handsome Benz was extensively restored and repainted in its original color. Restoration invoices for just under €40,000 are available from this period. A valuation report from 2022 certifies that the car is in well above-average condition, with a vehicle value of €220,000. This very elegant, exceptionally well-maintained and very well-preserved convertible is ready for its future owner for the new season.
