- **Restoration invoices totaling €17,500 from 2022/2023**
- **German registration with H license plate**
- **MOT inspection valid until December 2027**

The 2000 GTV marks the final stage of development in the Bertone coupé series (105 series) and is considered by connoisseurs to be the most mature version. The 2.0-liter inline four-cylinder engine with twin carburetors delivers 130 hp, combined with a crisp 5-speed transmission and disc brakes all round. With a curb weight of only 1,040 kg, the GTV offers direct, unadulterated driving dynamics that make it one of the most sought-after classic sports coupés from Italy to this day. Its clean design, mechanical substance, and everyday practicality make it a popular choice for collectors with driving ambitions. The current owner purchased the vehicle in 2014 and had it partially restored for approximately €17,500. The repairs were carried out on the engine, carburetor, entire brake system, and radiator. In addition, some welding and painting work was carried out in 2022 by a renowned specialist company. The beautiful GTV 2000 Bertone is offered with a current MOT certificate and Historic license plate.
