- **One of only 3,925 units ever built**
- **Coachwork by Bertone**
- **Partially restored**

The Alfa Romeo Montreal is a rare, iconic V8 classic featuring a unique design by Marcello Gandini at Bertone. Only 3,925 units were produced worldwide. The Montreal is known for its powerful 2.6-liter V8 engine and its distinctive louvered headlights.

Our customer purchased this beautiful Montreal a few years ago as a partially restored vehicle and has since invested an additional approximately 15,000 euros in the car. Today, this Alfa Romeo is in good overall condition. The car has German registration with an “H” license plate.
