- Many extras: 20-inch 10-spoke wheels in Diamond Black
- Black leather interior, silver stitching and piano black trim

A stunning Aston Martin Vanquish S from the final year of production. That means: the unfiltered Aston Martin 12-cylinder sound “at its best.” Originally delivered by Aston Martin Hilversum, this beautiful coupe made its way to Germany in 2019. Aside from a one-day registration, there is only one entry in the vehicle registration certificate. All scheduled maintenance was performed annually at an authorized Aston Martin dealer and recorded in the service booklet. The last inspection was carried out at an authorized Aston Martin service center in Düsseldorf on July 23, 2025, just 3,000 kilometers ago. Extras: 20-inch 10-spoke wheels in high-gloss black, black brake calipers, factory-fitted carbon fiber front spoiler, high-gloss black front grille, black full-leather interior with silver contrast stitching, seat ventilation, Bronze Jewellery Pack, One 77 steering wheel, etc.
