- **German vehicle, checkbook maintained**
- **Low mileage, attractive color combination**
- **2 pre-owners, accident-free, almost new condition**
- **Bang & Olufsen, full leather interior fine nappa**

Only 5% of the Audi R8s delivered were produced with a splitter manual transmission. This very attractive and rare convertible was delivered to the first owner, from Osnabrück, via the Audi Center Osnabrück in March 2012. The second owner from NRW bought the vehicle in May 2019 with a mileage of just 8,500 km and drove it exclusively in summer in dry weather as a third vehicle. All inspections were carried out regularly at authorized Audi centers. The beautiful Audi impresses above all with its extraordinary color combination, the immaculate condition and the low mileage. The only available manual convertible in Europe with this low mileage and the attractive 8-cylinder engine. Certainly a rare opportunity to drive an R8 Cabriolet next summer. The vehicle is delivered with current Audi service and a fresh MOT. The Pirelli brand tires were renewed at the end of 2022 and have a mileage of just 2000 km.
