- German vehicle, checkbook maintained
- High-quality interior (bicolor leather - Beluga/Saddle)
- Fully equipped with ventilated massage seats, neck warmer
- New price 201.328 €
- Attractive color combination, fresh service

This very attractive convertible was originally delivered to the first owner via the Bentley dealer A+M Automobile GmbH in Munich. The first owner had the car serviced exclusively by Bentley until 2021. In addition to the many standard features, many extras were added, so that the vehicle, with a new price of over €200,000.00, is almost fully equipped. The exclusive paintwork corresponds perfectly with the black aluminum rims and the black-brown interior. In 2022, this beautiful Bentley found its way to NRW and has been driven by two other owners to date. Three further services were carried out here, most recently on 06.05.2025. Certainly a very attractive and luxurious convertible for the current summer.
