- French vehicle, checkbook maintained
- Well-maintained vehicle with 2 pre-owners
- Challenge Stradale aluminum rims and radiator grille
- Factory fitted with roll bar and carbon sports seats
- Recent service with timing belt change

This beautiful Ferrari was handed over to the dealer Auvergne Motors in Beaumont at the end of 2001 via the general importer Charles Pozzi. The first registration took place on 12.03.2002 in Paris by the first owner. The very tasteful vehicle configuration in the color Argento Nürburgring Silver, in combination with the dark red interior, the carbon sports seats and the discreet roll bar, gives the vehicle a sporty and elegant touch. The well-maintained Modena was regularly serviced at Ferrari. The original service booklet with regular entries is available, making the service history and mileage fully traceable. At the beginning of 2025, a service with a timing belt change was carried out at a specialist garage in Reims. In addition, a MOT inspection with type approval for registration in Germany took place in April 2025, so that direct registration in France and Germany can take place. This Ferrari, freshly serviced, is currently in a very good and roadworthy condition.
