

Ferrari

599 GTB F1 Fiorano

First Registration:	02.08.2006	Capacity:	5.999 ccm
Mileage:	23.453 km	Color:	Rosso Corsa
Output:	456 KW/620 HP	Interior:	Leather, Black-Red

- Hamann conversion, original price EUR 328,236
- Very well-maintained vehicle with only 23,453 km mileage
- 2 pre-owners + one-day registration
- High-quality interior with carbon inserts/steering wheel
- Novitec sports exhaust with flap control
- Over 12 years in same ownership in Germany

An extraordinary vehicle that was converted by Hamann. The conversion was carried out on the new vehicle, which was then registered for the first time. The Ferrari 599 was configured with the following equipment and converted by Hamann: ceramic carbon brake system with red brake calipers, Hamann front, rear, and roof spoilers in the vehicle color, Hamann side skirts, rear diffuser, and Novitec sports exhaust system with flap control. Hamann lowering kit with 3-piece Edition Race alloy wheels, also from Hamann. The interior features a lot of carbon fiber (door sills, steering wheel, and instrument panel) and leather (A-pillar, headliner, and dashboard). The vehicle is in mint condition and has been very well maintained. A used car warranty can be purchased for an additional fee.
