Originally delivered by the well-known dealer Dino Ravasio & Fili in Verona to its first owner, Signora Alba Perri of Milan. In Italy, this beautiful Dino was cared for and driven by several owners before making its way to Germany in 2003. The current owner, a seasoned collector from Düsseldorf, acquired the vehicle in 2011. He has regularly invested in the mechanical and cosmetic aspects of this beautiful Ferrari. Two appraisal reports from 2011 and 2017 confirm that the vehicle is in above-average condition. Today, the car stands out for its exceptionally good and original condition. No maintenance-related work is required. This Dino has German registration with an "Historic" H license plate and is available to its new owner immediately.
