- Fully restored, in excellent condition
- Matching Numbers, Matching Color; Original DB data card
- Classic Data appraisal grade 1-
- German registration with H-license plate
- Power steering, air conditioning, Becker Grand Prix radio

Originally registered in the U.S., this beautiful W111 made its way to Germany in the early 2000s, where it underwent an extensive and authentic restoration. According to the original Mercedes-Benz vehicle registration document, the paint is the original color, Sand Beige Metallic. The engine is also the original, making this a matching number and matching color vehicle.

The current owner has driven this nearly perfect Mercedes a mere 1,200 km over the past 11 years, always only in good weather. Three Classic Data reports certify the vehicle to be in very good condition, with a grade of 1-. Since the restoration, the mileage has increased by only 5,468 kilometers. The vehicle comes with a fresh TÜV inspection, so the new owner can cruise worry-free and in style.
