

Maserati

Ghibli 4.7 Liter

First Registration:	01.07.1970	Capacity:	4.719 ccm
Mileage:	591 km	Color:	Celeste
Output:	228 KW/310 HP	Interior:	Leather, Beige

- Documented restoration by renowned specialist company
- Over 500 photos document the restoration work
- “Matching number,” original delivery color
- Maserati birth certificate and factory data sheet

This Maserati was delivered in 1970 in Celeste Blue. It still has its original engine. The car was extensively restored by a Maserati specialist. Invoices from the restoration and over 500 detailed photos document the work carried out on this vehicle. The individual steps, from the sheet metal and paintwork to the upholstery work, are documented. The electrical system has been completely renewed, as have the chassis parts, brakes, carburetors and exhaust. The engine has been thoroughly checked and a compression test has been carried out, which shows optimal values on all cylinders, so that a previous engine overhaul can be assumed. The vehicle is immediately ready for use without restriction. In 2024, this Ghibli was designated as worthy of preservation by the Austrian Curatorium for Historic Vehicles (KHMO).
