

Mercedes-Benz 190 SL

First Registration:	14.10.1960	Capacity:	1.884 ccm
Mileage:	21.698 km	Color:	Silver
Output:	77 KW/105 HP	Interior:	Leather, Red

- German vehicle
- Fully restored
- Paper registration certificate and service booklet
- Excellent overall condition

This Mercedes-Benz 190 SL was first registered in Germany on October 14, 1960. On March 31, 1969, it was temporarily deregistered until May 8, 1969. An original cardboard registration certificate is included. The car was last registered to Ms. Dorothee Holze of Bückeburg on May 8, 1989. The car later made its way to Austria, where the SL underwent a very extensive restoration. The new owner decided to repaint the car, which had originally been delivered in white, in Mercedes-Benz Silver. The restoration of the SL was completed in 2016. After the restoration was finished, a Movendi customer purchased the Mercedes-Benz and drove it occasionally in nice weather and on classic car outings. This Mercedes-Benz is still in excellent overall condition and is ready to hit the road for its next trip.
