

Mercedes-Benz

300 SL Cabriolet R107

First Registration:	03.05.1989	Capacity:	2.932 ccm
Mileage:	135.422 km	Color:	Blue-Black Metallic
Output:	132 KW/179 HP	Interior:	Leather, Grey

- One of the last examples of the R107 model
- Very well-maintained vehicle in attractive color combination
- German vehicle with H license plate
- Original service history and valuation report available

This beautiful SL 300 convertible was first delivered on May 2, 1989, via the Mercedes-Benz plant in Sindelfingen and registered one day later in Meckenbeuren on Lake Constance. All subsequent registrations took place exclusively in Germany. The original Mercedes-Benz service booklet has a total of 11 stamps (mostly from Mercedes workshops). In addition, numerous invoices prove that considerable investments were repeatedly made in the technology and appearance of the vehicle. Three value appraisals attest to the beautiful convertible's above-average condition with a grade of 2+ and a value of €50,000. Together with the mileage readings from the MOT inspections, the relatively low mileage can be traced without any gaps. The vehicle is being sold with a fresh MOT inspection, so the new owner can enjoy worry-free driving.
