- **First delivery to the US**
- **Matching Number**
- **Restored**
- **Hardtop in vehicle color**

This Mercedes-Benz 300 SL Roadster was originally delivered new to Seattle, USA, in 1959. The first owner, Mr. Demarsh, kept the vehicle until 1963. The second owner, also from Seattle, drove the roadster for nine years, until 1974. The same owner sold the car to Thomas Haring in Santa Barbara, California. Thomas Haring kept the 300 SL for twenty years and then sold the vehicle to Mr. Jandek in Osnabrück, Germany. There, it underwent a complete restoration by the Thom company in Langstedt. The work is documented with invoices and photos. The beautiful SL has been registered in Germany since 1995. The current owner purchased this gem 26 years ago and is now selling the vehicle to loving hands due to his age. A data card from Mercedes-Benz confirms the originality (matching number) of the engine.
