## 450 SL R107

First Registration:	01.07.1980	Capacity:	4.489 ccm
Mileage:	69.507 km	Color:	White
Output:	160 KW/217 HP	Interior:	Leather, Blue

- Well-maintained convertible with low mileage
- Matching-number vehicle
- Original paint, hardtop in body color
- Original service record with production data sheet
- German registration with H-license plate

Originally delivered and first registered in Richmond, Virginia, this beautiful R107 spent its first 25 years in the sunny part of the United States. There are several entries from this period in the original service booklet, as well as Mercedes-Benz service invoices. On September 21, 2005, the vehicle, with a mileage of 31,387 miles (approx. 50,000 km), was exported to Germany. In August 2007, the vehicle was registered in Germany for the first time and driven by its first German owner until December 2023. At the end of December 2023, the current owner, an experienced Mercedes-Benz collector from Düsseldorf, purchased the vehicle and, among other things, converted the bumpers and headlights to European standards. In April 2024, the odometer was converted from miles to kilometers, with a certificate confirming the correct mileage of 40,938 miles to 65,898 km. This verifies the low mileage and aligns with the vehicle's excellent condition. Since then, ongoing investments have been made in the vehicle, ensuring the new owner can drive it with complete peace of mind.
