Output:	96 KW/130 HP	Interior:	Black

- First delivery in Germany
- Matching number, matching color
- Completely restored vehicle
- With original Porsche certificate
- German registration with H license plate

This beautifully restored Porsche 911 Coupé was delivered on September 21, 1966, via the Porsche dealer Gramling in Karlsruhe. The color scheme and the engine and transmission numbers were confirmed in a Porsche certificate dated November 12, 2012, so that the vehicle can be assumed to be a matching number/matching color vehicle. A total of four owners are listed in the German vehicle documents. Three Classic Data reports certify that the Porsche is in very good condition with a grade of 1 and a vehicle value well over €200,000. The third owner, the owner of the well-known Porsche workshop Boxer Motor in Manching, extensively restored the vehicle for himself in 2018. In 2023, an experienced collector from North Rhine-Westphalia acquired the coupé and had it regularly serviced in specialist workshops in 2023, 2024, and 2025. The vehicle already has an H license plate and has TÜV until August 30, 2027.
