- Sought-after Carrera 2 Speedster, 1 of 931 in total
- 5-speed manual transmission, limited-slip differential, AC
- Full service history with traceable history
- Original paintwork
- Very low overall mileage

A rare gem within the Porsche 964 series, the Speedster was produced as a standalone model in a limited edition of just 931 units. The Speedster is based on the 964 Carrera 2 Cabriolet, but with a shortened windshield and distinctive humps in the rear, giving the vehicle an even sportier and purist look and feel.

This very well-equipped and perfectly preserved Speedster was very well cared for and maintained by its first owner for almost 15 years and only driven 25,000 km in sunny California before coming to Germany in 2009. There are 16 stamps in the original Porsche service booklet. The vehicle is completely in its original paint, perfectly maintained, and is immediately available to its new owner for exciting drives.
