Originally delivered by the Porsche Center Niederrhein to the first owner in northern Germany. The first owner drove this beautiful Porsche for 12 years and maintained the vehicle regularly. There are numerous entries in the original Porsche service booklet, as well as several service invoices. In 2020, the current owner purchased the Cabriolet with 54,500 km on the odometer. In mid-2022, the current owner had a major service performed—including replacement of the drive belts—at a renowned Porsche specialist in Fritzlar. Thanks to the vehicle's very tasteful configuration, featuring many extras, and its excellent condition after just two owners, the future owner can look forward to spirited drives in this powerful convertible.
