- Sought-after 2.7-liter Porsche Targa Model
- Prominent previous owner in the U.S.
- Restored vehicle in well-maintained condition
- Replacement engine with documentation
- 5-speed manual transmission
- German registration with H license plate, many new parts

This vehicle was originally delivered to the United States. There, actress Kristine Kelly purchased this beautiful Targa in 1996 and drove it in New York City for 15 years, until mid-2011. The U.S. title and various service invoices from that period are on file. In 2015, the vehicle was exported to Germany, where it underwent a partial restoration and was repainted. At the end of 2015, a DEKRA appraisal was issued with a grade of 2+. Subsequently, further investments were made in the car, totaling over 17,500 euros. At the end of 2022, the engine had to be replaced. A reconditioned replacement engine was installed at the renowned Porsche workshop Glinicke Classic Cars in Kassel for a total of 21,000 euros. Since then, this beautiful 911 has been driven only 1,500 kilometers. Another appraisal from 2023 also attests to the vehicle's above-average condition. Just 1,000 km ago, a major inspection was performed at a cost of over 5,500 euros, so the new owner can hit the road right away without any pending service work.
