

Porsche 928 GTS

First Registration:	01.12.1992	Capacity:	5.397 ccm
Mileage:	65.028 km	Color:	Polar Silver Metallic
Output:	257 KW/349 HP	Interior:	Leather, Dark Blue

- **Very low mileage**
- **Well-documented history with many service invoices**
- **Well-maintained vehicle with verifiable mileage**
- **German registration with an “H” license plate**

Starting in 1992, the 928 GTS—the most powerful variant with 350 PS and a 5.4-liter displacement—was offered and is considered the most sought-after 928 engine variant. This 928 GTS was originally delivered in Japan, where this beautiful Porsche underwent several maintenance visits at a Porsche dealership until 2010. There are several service invoices from this period, including mileage records. The last service record in Japan is dated April 19, 2009, with 37,400 km. At the end of 2009, the GTS was registered to another owner in Salzburg, Austria, before the vehicle was registered to its current owner in Germany in 2018.

Numerous service and repair invoices with corresponding mileage figures are available from both its time in Austria and the present, so the current low actual mileage can be assumed to be accurate. A 2023 appraisal certifies that this beautiful 928 GTS is in above-average condition. There are no outstanding maintenance tasks, so the new owner can hit the road right away.
