

Porsche 944 S2

First Registration:	08.08.1989	Capacity:	2.969 ccm
Mileage:	144.266 km	Color:	White
Output:	155 KW/211 HP	Interior:	Black/Brown

- German vehicle, full service history
- Central locking, power sunroof
- 5-speed manual transmission
- Well-maintained vehicle with verifiable history
- H-license plate, many new parts

Originally delivered by the Porsche authorized dealer Minrath in Moers, this beautiful 944 was first registered in Düsseldorf on August 8, 1989. The original Porsche owner's manual, including the service booklet with numerous service entries through the end of 2025, is included. The collected documentation also contains several maintenance invoices from reputable repair shops. Thus, one can assume that this is a technically well-maintained vehicle. The Porsche has been registered exclusively in Germany and currently has an H-license plate. The vehicle's history and mileage are clearly traceable based on the documentation. There are no outstanding service intervals, so the new owner can look forward to spirited drives.
