- **Rolls-Royce exhibition vehicle Mondial de l'Automobile in Paris 2008**
- **A powerful, luxurious and modern convertible that embodies the “Spirit of Ecstasy”**
- **Extensive special specifications**
- **Very well-maintained vehicle with German registration**

This Rolls-Royce Drophead Convertible vehicle was exhibited by Rolls-Royce at the “Mondial de l'Automobile” in Paris in 2008. Rolls-Royce showed the new color New Sable for the first time on this convertible and on a Phantom Coupé on their stand. With the beige soft top and the very harmonious interior in dark brown leather, this convertible is very exclusive, elegant and yet restrained. The extensive range of optional extras was intended to show prospective buyers what Rolls-Royce has to offer. A German collector bought this special vehicle 10 years ago and had a lot of fun with the Phantom. Now the vehicle is for sale and is being offered with a fresh service before delivery.
